MARIA ART STORE

Print, color & enjoy!

A simple guide to printing your boat coloring pages.

1. Unzip your download

Extract or unzip the download first. The packet includes six coloring-page PDFs and six matching PNG images. This guide is included too.

2. Open a coloring-page PDF

Choose boat1.pdf through boat6.pdf and open it in your PDF viewer. Use the PDF files for the simplest printing experience.

3. Choose these print settings

Paper size	US Letter (8.5 x 11 inches)
Orientation	Portrait
Scale	Actual size / 100%
Pages per sheet	1
Sides	One-sided
Borderless printing	Off

4. Load paper and print

Use your printer's normal paper tray or feed. Print one test page first, then print the pages and number of copies you want.

Helpful tips

The artwork has at least a half-inch white margin. Check the print preview before printing. If an edge looks cut off, choose Fit or Fit to printable area.

Plain paper works well for crayons and colored pencils. For thicker paper, follow your printer's paper-weight and feed instructions.

Thank you for choosing Maria Art Store. Happy coloring!
